How to navigate

1

Find the junction number

Every sign shows a number in its top corner. Find it on the map to see where you are.

2

Follow the colours

Pick your route's colour. After each sign, a marker in that colour confirms you're on the right route.

3

Plan your route online

Scan the code for directions using the same numbers and colours as the signs. No app needed.

Scan here

Open the digital map

or search "Fort William Official Walking and Cycling Network" online

Signs you will see

On the Fort William network

Junction signs
Junction signs indicate where you are on the network (top corner number) and where to go next (route colour and next junction number).

Route markers
Markers indicate what route and colour you are on. You will always see them in between two junction signs.

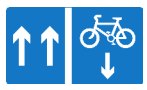

Road signs

Shared path
People walking and cycling share the path. Give way to people on foot and pass slowly.

Cycle route
A route recommended for people on bikes.

Contraflow
Bikes may ride against the one-way traffic, in their own lane.

Cycles ahead
Warns drivers that people on bikes are likely on the road ahead.

No cycling
Cycling isn't allowed here: dismount and walk.

Tips for cycling on the road

1 Ride where you can be seen
On quiet roads, in slow traffic and at junctions, ride in the centre of your lane. On faster roads, keep at least 0.5 m from the kerb.
Highway Code Rule 72

2 Leave a door's width
Pass parked cars at least 1 m away, in case a door opens.
Highway Code Rule 67

3 Look, signal, then move
Look all around before you pull out, turn or change position, and signal clearly.
Highway Code Rule 67

4 Stay out of blind spots
Don't ride on the inside of a lorry or bus that is turning left: the driver may not see you.
Highway Code Rule 74

5 Lights at night
At night you must have a white front light and a red rear light lit, and a red rear reflector.
Highway Code Rule 60

6 Share paths kindly
On shared paths, give way to people walking, slow down and pass wide. A bell helps.
Highway Code Rule H2

7 You are owed space
Drivers should leave at least 1.5 m when overtaking you at up to 30 mph, and more at higher speeds.
Highway Code Rule 163

From The Highway Code. Read it in full at gov.uk/highway-code.
